W03-P3: implement next button and show the sequence in console.log

The screenshot shows the VS Code editor with the following code in `app_39.js`:

```
const showReview = (person) => {
  const item = reviews[person];
  console.log('item', item);
  img.src = item.img;
  author.textContent = item.name;
  job.textContent = item.job;
  info.textContent = item.text;
}

window.addEventListener('DOMContentLoaded', () => {
  showReview(currentItem);
});

nextBtn.addEventListener('click', () => {
  currentItem++;
  if (currentItem >= reviews.length) {
    currentItem = 0;
  }
  //console.log('currentItem', reviews[currentItem]);
  showReview(currentItem);
});

prevBtn.addEventListener('click', () => {
  currentItem--;
  if (currentItem < 0) {
    currentItem = reviews.length - 1;
  }
  //console.log('currentItem', reviews[currentItem]);
  showReview(currentItem);
});

randomBtn.addEventListener('click', () => {
  currentItem = Math.floor(Math.random() * reviews.length);
  showReview(currentItem);
});
```

The browser shows the "Our Reviews" page with a review for Anna Johnson, a Web Designer. The "next" button is highlighted with a red box. The DevTools console shows the sequence of reviews being displayed:
